Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5 the phrase "including, but not limited to, sippers....", in claim 6 the phrase "any one of combination of materials including, but not limited to...", and in claim 7 the phrase "for one or of combination of applications, including, but not limited to..." are vague, indefinite, and they do not recite any definite limitation,.

Claim 7 merely recites intended use of the footwear and therefore does not recite any structural limitations and therefore it is not clear what structural limitations applicant intends to encompass with such language.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3-7, and 9-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Smith (3192651).
5. Claims 1, 2, 4-7, and 9-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Laio (6594921).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over either Smith or Laio.

Either Smith or Laio shows a shoe and inherent method of using such except for the shoe having a support therein. Official notice is taken that it is well known and conventional to provide supports such as arch supports in footwear. It would have been obvious to provide a support in the shoe of either Smith or Laio to support the foot of the wearer better.
